

Maritime Environmental Engineering Services
Shipping Agency

Company profile

Company profile

Poliservizi Srl was established in 1987, taking over the shipping and brokerage agency Ali & Sons founded in 1834 in Messina.

The company has a dynamic team of professionals with proven experience in various marine/land sectors. It mainly specialized in **Shipping Agency Services, Permitting (PIP/OP)** and **Technical/Environmental Studies (DTS, PFS, EIA, ESIA)**, and also has a long and established experience in **Marine and Terrestrial Surveys: Geophysical/Geotechnical in-shore surveys** carried out by sister company NextPoli Srl, **Environmental and Archeological Investigation/Monitoring Plan**, Design and Execution of maritime and submarine works, including assistance in submarine cable laying, marine remediation and anti-pollution, **Buoy Installation** and support for renewable energy projects.

Poliservizi also works in the field of **Vessel Chartering and Guard Vessel/Patrolling/Crew Boat**. All activities are performed on the basis of the certified quality system ISO 9001:2015, environmental management system ISO 14001:2015 and health and safety management system ISO 45001:2018.

Poliservizi has contracts with important International Customers and Historical Partnership in whole Mediterranean Basin, including the Atlantic and Red Sea Area as well.

The Services are managed and carried out in-house, thanks to a highly qualified multidisciplinary Technical Staff for all activities and specialized software and equipment.

The Aim of Poliservizi is:

"Always Ready, United we Win."

Overview

- ✓ **35 years of history and counting**
- ✓ **Multidisciplinary Technical Staff**
with Engineer, Geologist, Marine Geophysicist/Biologist/Archaeologist, Ship's Captain and Chief Engineer, Diver
- ✓ **Staff Certificate for specialist activities:**
Opito Basic Offshore Safety Induction & Emergency Training (Bosiet), JNCC Marine Mammal Observer Course, Protected Species Observer, CAD and QGIS, Modelling Software, Geophysical Software
- ✓ **Specialized software and Equipment**

Driving forces

- ▶ Quality of Products and Processes
- ▶ Technologies and Personnel skills
